

Since 1993

Additive Masterbatch

Quality With Us...

YILDIZ KOLOR ADDITIVE MASTERBATCH

YILDIZ KOLOR offers a lot of different formulations that provide continuous quality, cost effectiveness and specialty for our customers applications. YILDIZ KOLOR additive masterbatch products provide excellent properties, good final product and needing all process requirements an also usefull for perfectly dispersed in an suitable carrier resin.

YILDIZ KOLOR additive masterbatches are suitable for different markets such as packaging, electronics, textiles, cables, automotive, construction and also different industries.

YILDIZ KOLOR additive products are; Slip Masterbatch for modify the coefficient of friction of plastic films, Antiblock Masterbatch for prevent blocking of plastic films, Antistatic Masterbatch for prevent static electricity for plastic films, Antioxidant Masterbatch for increasing process stability, Process Aid Masterbatch for improving process conditions and eliminate surface defects, Flame Retardant Masterbatch for increasing flame retardant properties of plastic products, UV Masterbatch for good UV stability of plastic products, Clarifying Masterbatch for obtain highly effective clarifier for homopolymer and rondom PP copolymer products, Optical Brightener Masterbatch for providing an good brightining effect, Antislip Masterbatch for providing non-slip surface of plastic films, Antimicrobial Masterbatch for removing all gram-positive and gram-negative bacteria from plastic products, Antifoging Masterbatch for eliminating water droplets from food packaging, Fragrance Masterbatch for specialty fragrance for plastic films.

ABOUT US

More than 30 years of experience in the sector, which started operations in 1993, Yildiz Kolor, a variety of domestic and foreign vendors has taken place in the plastics industry. Activity in the beginning of our company since it gives priority to quality and innovation, within the framework of developing technology and economic conditions of masterbatch production facility established in 2004. Masterbatches through the whole country is selling franchises in the region of Anatolia. Product reliability and customer-focused enterprise working to adopt the principles of continuous increase production capacity for future investments

VISION

Understanding of quality service and continuous improvement, involving the highest level of customer satisfaction, Turkey and a leader in world markets and be an example

MISSION

Our company's activities as a key element to consider long-term business partnerships with our customers, superior quality and create added value for them by offering the most affordable prices.
